Ohio River Trail Near Little Miami WWTP to Close on September 28

Short detour in place starting September 29 for up to a month

CINCINNATI – The Ohio River Trail – adjacent to the Little Miami Wastewater Treatment Plant in the East End – will close on Monday, September 28, for one day to install a temporary detour path around a small construction zone.

The trail will re-open on Tuesday, September 29, with a short gravel detour path in place for up to a month, pending weather and field conditions.

The Metropolitan Sewer District of Greater Cincinnati (MSD) is installing new storm sewers on the west side of the plant where an anaerobic digestion facility is under construction. The storm sewer needs to be tied into a manhole in the trail, thus requiring the trail detour.

Please see the attached map.

For additional information, please visit the project webpage at msdgc.org/digester or contact MSD Engineering Customer Service at (513) 557-3594 or MSD.Communications@cincinnati-oh.gov and reference project ID 10281100.
