Traffic Alert for Delhi Township

Traffic impacts on Rapid Run Road in mid-August for about 1 week

CINCINNATI – Traffic impacts will occur on Rapid Run Road in Delhi Township in mid-August for about one week, pending weather and field conditions. The Metropolitan Sewer District of Greater Cincinnati (MSD) is installing a new sanitary sewer lateral in the 5900 block of Rapid Run Road.

Please see the attached project map.

Rapid Run Road will be closed to thru traffic between Stonebridge and Woodshire drives with a detour in place. Local access will be maintained but there could be delays. Please plan accordingly.

MSD's contractor, Larry Smith, Inc., will be installing about 65 feet of 6-inch-diameter sewer lateral. The new lateral will bring public sewer service to one property on Rapid Run Road and allow the property to eliminate their on-site septic system.

Construction work will generally take place Monday through Thursday 7:00 a.m. to 5:00 p.m., with work on Fridays if needed.

In addition to traffic inconveniences, typical construction-related disturbances such as noise, dirt and vibrations should be expected throughout the construction period. If a planned interruption of utility service is necessary, you will receive notification prior to the interruption.

For additional information about the MSD project, please contact MSD Customer Service at (513) 244-1300 or MSD.Communications@cincinnati-oh.gov.
